

Floodlighting

Side Entry Adaptors

Side entry adaptors are used to fit any side entry luminaire onto one of our standard floodlighting columns. Two spigot sizes are available – 42mm and 60mm, with 0° or 5° of upward tilt.

Designed to fit onto a $\varnothing 76$ mm pole spigot.

All Urban Lighting Group columns and brackets are made from hot dip galvanized steel, and can be painted or powdercoated in your choice of colours.

Models
